DETAILED ACTION

Claim Objections

Claim 39 is objected to because of the following informalities:

Claim 39, line 2, change from "conduit, each" to "conduits, each". Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-16, 20-35 and 37-41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. In particular, the independent claims fail to provide a transitional phrase such as "comprising".

Claims 38 and 39 appear to define the claimed invention in terms of the non-claimed invention of a remote supporting structure.

Allowable Subject Matter

The Examiner reserves any indication of any allowable subject matter at this time.

Response to Arguments

Applicant's arguments with respect to claims above have been considered but are moot in view of the new ground(s) of rejection.
